DETAILED ACTION

1. Claims 1-20 were pending at the time of the previous Office Action. New claims 21 and 22 have been added via the amendment filed 2-14-2006. Therefore claims 1-22 are pending and have been examined. Via the latest amendment, the applicant has corrected an error in the claim numbering inadvertently introduced in an earlier amendment filed 9-12-03. This is proper as it does not actually renumber the claims but merely restores them to their numbering as originally filed.

Drawings

2. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because claims 2, and 4-7 have hand-drawn informal text and numbering, claims 3A and 3B are entirely informal and are presented on lined paper unsuitable for publication. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Allowable Subject Matter

3. Claims 13-18 were mistakenly indicated as rejected under 35 USC 103(a) in the previous Office Action: "on the same basis as claims 1-12." Claims 1-12 were actually indicated as allowed in that Action. Claims 13-18 should instead have been indicated as rejected on the same basis as claims 6-8.

4. Claims 1-22 are allowed.

5. The following is an examiner's statement of reasons for allowance:

The closest prior art in the field; Miller US 5,550,968, and Pinard, US 5,533,110, do not teach the features found in the independent claims of: a user placing a Telephony Over LAN (ToL) client window of a Graphical User Interface (GUI) of a computer into a "guest mode" whereby a guest user is "locked" into the ToL client window, the guest having full or unrestricted access to the features within the ToL client window, while being prevented from unauthorized use of functions of the computer external to the ToL client window.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
